

MOVE+ — REFUND POLICY (SUBSCRIPTIONS)

Last updated: December 15, 2025

1. PAYMENTS ARE HANDLED BY GOOGLE PLAY / APP STORE

All subscription purchases are processed through:

- Google Play Store (Android)
- Apple App Store (iOS)

Because of this, Move+ cannot issue refunds directly.

All refund requests must follow the policies of the platform where you purchased the subscription.

2. REFUND REQUESTS

If you believe you were charged by mistake or need a refund, please use the official refund process:

Google Play (Android)

You can request a refund directly through Google:

- Open play.google.com/store/account
- Select Order History
- Choose your Move+ subscription
- Tap Request a Refund

Or follow their help guide via "Google Play refunds".

Apple App Store (iOS)

You can request a refund through Apple:

- Visit reportaproblem.apple.com
- Sign in with your Apple ID
- Select your Move+ subscription
- Tap Request a Refund

Apple reviews refund requests individually.

3. NON-REFUNDABLE SITUATIONS

Refunds are generally not available for:

- Forgetting to cancel before renewal
- Not using the app during the billing period
- Changing your mind after subscribing
- Issues caused by device/GPS/settings
- Attempted cheating or policy violations

Move+ does not provide pro-rated refunds for partial months.

4. SUBSCRIPTION AUTO-RENEWAL

Subscriptions renew automatically unless canceled before the next billing cycle.

You may cancel anytime through your:

- Google Play account
- Apple ID subscription settings

Cancellation stops future charges but does not refund past payments.

5. TRIAL PERIODS

If Move+ offers a free trial:

- You must cancel before the trial ends to avoid being charged.
- Charges after the trial follow the store's refund policy.

6. TECHNICAL ISSUES

If you experience technical problems:

- Contact us at moveplus@gmail.com
- Provide your account details and the issue you faced

We'll try to fix the problem, but refund eligibility still follows Google/Apple rules.

7. FRAUD, ABUSE, OR VIOLATIONS

Move+ may refuse refunds for accounts involved in:

- Cheating or GPS manipulation
- Abuse of referral systems
- Multiple account farming
- Chargeback misuse

Violations may result in account suspension.
